

Commercial Agency

Caxtons Commercial Agency division is active in the Thames corridor and throughout Kent and South East London.

The team act on behalf of corporate clients, pension funds, property companies, property developers, institutional landlords, local authorities, logistics operations, retailers and private individuals.

Commercial Agency sectors include:

- * Industrial units and estates
- * Office buildings and suites
- * Development land
- * Investments
- * Retail units

Our Commercial Agents provide advice on:

- * Disposals and acquisitions
- * Lettings
- * Development and planning
- * Corporate strategy
- * Logistics / supply chain consultancy
- * Serviced offices
- * Research and investment

all your **property** needs

The Service

Our Commercial Agency Team has a full understanding of the property market both on a local regional level and on behalf of national occupiers looking to relocate to the area.

We have been involved with the majority of the industrial estates, office developments and retail shops within the area and therefore our extensive knowledge enables us to advise our clients and provide the best possible strategy for their building.

As one of the largest surveying practices in the South East, our approach of leaving no stone unturned has earned us an award for being the most active regional agent.
